The success of a software implementation can be easily identified by the ability of employees to readily adapt to new products and processes.

Education is the foundation for building the knowledge and skills necessary to achieve this goal. Deltek University (DU) provides education to maximize your Deltek investment and to minimize project risk. DU has over 20 years of experience providing high-quality education and has delivered over 200 unique courses to thousands of users with consistent excellent feedback.

Deltek University's professional Learning and Development staff will support your specific requirements with a commitment toward making you successful. Deltek training can help your firm:

- Mitigate project and business risks
- Gain faster acceptance among users
- Achieve operational excellence and growth

Learning Options

As your business grows, so will your needs for education. Through proven education strategies tailored to your needs, Deltek University will help you leverage your investment and realize optimum employee utilization and business performance. You can choose from multiple, flexible delivery options including on-site or public instructor-led training (ILT), virtual ILT, web-conferencing, eLearning or side-by-side training.

User-Friendly Support Materials

Support materials including user training manuals, quick reference cards, and job aids are effective tools in reinforcing and supporting training and are used in conjunction with delivered training methods. These tools provide learners with the additional resources necessary to reinforce learning and provide a reference to those who have completed learning and are actively using an application system.

Training for Deltek Applications

Deltek University offers premium education delivered by instructors certified in the Deltek applications including: Deltek Active Risk Manager, Deltek Budgeting & Planning, Deltek Cobra, Deltek Costpoint Enterprise Reporting (formerly known as Deltek Performance Management), Deltek Costpoint, Deltek Costpoint CRM, Deltek Enterprise Project Management Solutions, Deltek GCS Premier, Deltek MPM, Deltek Open Plan, Deltek Time & Expense, Deltek wInsight, and Vision.

Federal Government Contracting Training

Whether you are new to the Federal government contracting market or ensuring that your business operations remain compliant with current federal standards, Deltek offers a variety of training solutions to help you win more federal contracts.

Education Delivery Methods

Project and Change Management Training

During any wide-scale change in which a new system or methodology is implemented, failure to adequately prepare users can significantly impact user adoption, thus negatively affecting a project's success. A comprehensive Organizational Change Management (OCM) program that holistically integrates people, systems, and processes is imperative, enabling all stakeholders to achieve the strategic vision and goals that stimulated the change. Our OCM consulting can help users leverage organizational change for positive outcomes.

Through our partnership with ESI, Deltek University also offers earned value and project management courses, which provide the training, techniques, and tools to manage each stage of a project life cycle. You'll learn how to work within organization and cost constraints, set goals tied directly to stakeholder needs, and utilize state-of-the-art project management tools to get work done on time and within budget.

Accreditation

Deltek, Inc. is registered with the National Association of State Boards of Accountancy (NASBA) as a sponsor of continuing professional education on the National Registry of CPE Sponsors.

Deltek Enterprise Project Management (EPM) and Deltek Vision class attendees are eligible for Project Management Institute (PMI) credits.

Deltek (Nasdaq: PROJ) is the leading global provider of enterprise software and information solutions for professional services firms, government contractors, and government agencies.
