

DELTEK UNIVERSITY

Deltek Insight 2010 Post-Conference Workshops

Deltek University will once again offer its popular Insight 2010 Pre-Conference Workshops during a one-time only virtual event this September.

With virtual learning, you can experience all the benefits of being in the classroom while learning from your home or office. Deltek University provides unparalleled virtual training with certified Costpoint instructors, advanced instructional techniques, and personalized computer lab environments that enable students to privately practice lessons while receiving support.

Consolidate turn-key solutions for your business while saving time and travel costs – register today and join Deltek University for Insight 2010 Post-Conference Workshops.

For more information or to register, visit www.deltekuniversity.com. Hurry, while seats are still available.

COSTPOINT WORKSHOPS

Deltek Performance Management V3.0 Report Studio for Costpoint Accountants

Designed specifically for Costpoint accounting specialists, this class focuses on the functionality of Report Studio and highlights the 10 must-have reports used daily by accountants. Participants in this course will review creating reports using filters, prompts, subtotals, crosstabs and graphs, as well as the development of quarterly financial statements and trend reports. The creation of an aging open billing detail report will also be covered.

September 13, 2010, 11:00am – 6:00pm

Costpoint Advanced Billing Concepts

This class addresses several complex billing issues. Detailed exercises include creating a “combo” project with Cost Plus and Time and Materials components, as well as making use of units. Retroactive invoices for both hourly Project Labor Category rate and indirect rate changes will be examined. This course will also include billing retainage, wide area workflow, and discounts.

September 13, 2010, 11:00am – 6:00pm

Costpoint Billing and the Unbilled Receivable Reconciliation

In this abbreviated version of our two-day course, we will focus on several facets of the Costpoint Unbilled Receivable Reconciliation, using step-by-step procedures for identifying issues. Initially, we will look at problems behind balances that do not clear naturally. We will then examine user process errors that create many irreconcilable differences. Finally, we will examine the “CAPITAL” reconciliation methodology.

September 14, 2010, 11:00am – 6:00pm

GCS PREMIER WORKSHOP

GCS Premier Customizing GCS Invoices Using Excel

To meet contract billing requirements, invoices require customization. The GCS Premier Customizing GCS Invoices Using Excel workshop can simplify the invoice customization process. In this comprehensive workshop, we will review how to create new templates and edit master templates, including reviewing available fields, calculations, and repeating fields. Next, a complete Premier Billing cycle, including mapping templates and invoice generation, will be detailed to maximize the efficiency of invoice production. This course features hands-on activities utilizing relevant billing scenarios.

September 14, 2010, 11:00am – 6:00pm

VISION WORKSHOPS

Vision Standard Reporting, Analysis Cubes, and Security

Review standard Vision reporting functionality and enhancements. Analyze general ledger and project data with Analysis Cubes and pivot table reports in Excel. Finally, examine custom security setup to monitor application access for standard Vision reporting.

September 13, 2010, 11:00am – 6:00pm

Vision Report Builder and Introduction to Report Designer

Get the best in advanced reporting in one course: develop custom reports using predefined report model entities and fields in Report Builder, or become introduced to designing more advanced, custom reports across Vision Info Centers with SQL Server® Reporting Services tool, Report Designer.

September 13, 2010, 11:00am – 6:00pm

Vision Workflow and Designer

Make Vision work for your specific needs. Learn to facilitate collaborative working environments with workflows that establish criteria and trigger automated notifications and changes based on your business processes. Access tools to design Vision Info Center screens, selected forms, and navigation menus in the Vision Designer application.

September 14, 2010, 11:00am – 6:00pm

EPM WORKSHOP

Transitioning to Cobra 5 – What's New in Cobra 5

This workshop is designed to prepare existing Cobra 4.7 users for transition to Cobra 5. In this workshop, participants will review the new Cobra 5 terminology, the new Cobra user interface, navigation and menus, process changes with the use of wizards, converting data, and security. This workshop builds proficiency using Cobra 5, adding significant value to cost management and project control operations.

September 13, 2010, 11:00am – 6:00pm
