

Deltek Global Services Performance Management Quick Start Service Package

Let Deltek Global Services Ease Your Migration to Deltek Performance Management

THE QUICK START SERVICE PACKAGE OFFERS:

- Reporting environment assessment
- Cognos server installation & configuration
- Deltek Performance Management deployment
- Embedded reports testing
- Existing reports assessment
- Migration scope document
- Three days of Deltek professional author training

The Deltek Global Services (DGS) Performance Management Quick Start Service Package is designed to help customers accelerate their implementation of Deltek Performance Management and be up and running faster than ever. DGS consultants will help maximize your success by ensuring that best practices are applied when implementing Deltek Performance Management. Not only will they enable your organization to take advantage of Deltek's new Performance Management solution, including its 50 out-of-the-box reports and built-in reporting portals, but our consultants will also help you assess the migration of your current Impromptu reports to Deltek Performance Management.

A FASTER, EASIER IMPLEMENTATION

When you take advantage of Deltek Global Services' experience and expertise for your Performance Management deployment, you are ensuring a smoother, more accelerated process for your organization. You'll get the benefit of over 20 years of implementation experience from our trained Deltek professionals. Our experienced professionals will assist you in determining the roadmap for migrating your current reporting environment to Deltek Performance Management.

To make your deployment go more smoothly, our Quick Start Service Package includes tools, tasks and deliverables that have been developed and tested by Deltek Global Services, including:

- Technical advice and assistance
- Technical readiness assessment document
- Report migration assessments
- Training

RAPID DEPLOYMENT, ACCELERATED TIME TO VALUE

The use of our Quick Start Service Package provides faster cost recovery over alternative methods. This allows your organization to derive value from your software investment as soon as possible. You'll also see fast business benefits from our latest technology platform, which provides additional performance and architecture enhancements. And because most businesses have a busy IT team, this service offering includes all of the tools, such as, plans, checklists and techniques, that are necessary to deploy and expand the adoption and use of Deltek Performance Management.

Deltek (NASDAQ: PROJ) is the leading provider of enterprise applications software designed specifically for project-focused businesses. For more than two decades, our software applications have enabled organizations to automate mission-critical business processes around the engagement, execution and delivery of projects. More than 12,000 customers worldwide rely on Deltek to measure business results, optimize performance, streamline operations and win new business.

TRUST DELTEK'S EXPERIENCED PROFESSIONALS

Our consultants will lead you through the deployment process from start to finish using tested tips and techniques that are based on our knowledge of the product and many years of experience assisting project-based businesses. The end result is an upgraded solution that enables you to take advantage of our new capabilities quickly.

PROVEN TOOLS AND TECHNIQUES

Deltek Global Services has used our years of experience with business intelligence applications to develop a proven implementation methodology. Our consultants have extensive knowledge of the product, enabling them to deliver tools and techniques that accelerate your time to benefit. These tools and techniques have been proven and refined, resulting in a more predictable and high quality deployment.

LOWER TOTAL COST OF OWNERSHIP

Our upgrade service offers our customers a lower total cost of ownership by reducing the time involved in deploying Deltek Performance Management through the use of Deltek developed tools and techniques. Our experienced Performance Management consultants will guide you through the deployment process, ensuring a fast implementation and realizing value and benefit sooner. Our consultants also have direct access to the Deltek product development and technical support teams, information and techniques.
