

Deltek

UKG Pro for Vantagepoint

Integrated HCM/Payroll and ERP

- Unite workforce management with project and financial intelligence. This integration includes:
 - **Employee Sync:** Employee demographic data is sent from Pro to Vantagepoint for initial employee onboarding, employee data maintenance/updates, and offboarding
 - **Timesheet Data Sync:** Employee hours and projects are synced from Vantagepoint to Pro
- The integration is built and supported by Deltek. Additional features will be released as they are made available
- Limited configuration options for customer-specific use cases available during implementation
- **Requirements:**
 - *Vantagepoint 2025.3 SaaS and above*
 - *UKG Pro HCM and Payroll*
 - *Annual agreement with Deltek includes implementation and updates*

Integrating UKG Pro and Deltek Vantagepoint creates a seamless bridge between best of breed HCM/Payroll and project accounting software.

By syncing employee demographic and time data, teams can avoid duplicating effort and messy file transfers. Automated employee enrollment/transfer, comprehensive payroll solutions, and compliance tracking result in fewer errors, rework, and more time to focus on what makes your business great – your people.

Finance and HR teams can now rely on automated workflows that make enrolling or changing an employee's status a simple task that cascades throughout the HCM/Payroll and ERP. And payroll is as easy as clicking a button.
